

## Contributor License Agreement ("Agreement")

Thank you for your interest in software from the California Institute of Technology ("Caltech") or Caltech's operating division, the Jet Propulsion Laboratory. In order to clarify the intellectual property license granted with Contributions from any person or entity, Caltech must have a Contributor License Agreement (CLA) on file that has been signed by each Contributor, indicating agreement to the license terms below. This license is for your protection as a Contributor as well as the protection of Caltech and its users; it does not change your rights to use your own Contributions for any other purpose.

This version of the Agreement allows an entity (the "University") to submit Contributions to Caltech, to authorize Contributions submitted by its designated employees to Caltech, and to grant copyright and patent licenses thereto.

If you have not already done so, please complete and send a signed copy of this Agreement to Caltech Office of Technology Transfer, Mail Code 210-85, Pasadena, CA 91125, U.S.A. If necessary, you may send it by facsimile to Caltech at +1-626-356-2486. Please read this document carefully before signing and keep a copy for your records.

In return, Caltech shall not use Your Contributions in a way that is contrary to the public benefit or inconsistent with its nonprofit status and bylaws in effect at the time of the Contribution. Except for the license granted herein to Caltech and recipients of software distributed by Caltech, You reserve all right, title, and interest in and to Your Contributions.

### 1. Definitions.

"You" (or "Your") shall mean the copyright owner or legal entity authorized by the copyright owner that is making this Agreement with Caltech. For legal entities, the entity making a Contribution and all other entities that control, are controlled by, or are under common control with that entity are considered to be a single Contributor. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"Contribution" shall mean the code, documentation or other original works of authorship expressly identified in Schedule B, as well as any original work of authorship, including any modifications or additions to an existing work, that is intentionally submitted by You to Caltech for inclusion in, or documentation of, any of the products owned or managed by Caltech (the "Work"). The is intended to be ISSM (Ice Sheet System Model). For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to Caltech or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, Caltech for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by You as "Not a Contribution."

2. Grant of Copyright License. Subject to the terms and conditions of this Agreement, You hereby grant to Caltech and to recipients of software distributed by Caltech a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, sublicense, and distribute Your Contributions and such derivative works.

3. Grant of Patent License. If any entity institutes patent litigation against You or any other entity (including a cross-claim

or counterclaim in a lawsuit) alleging that your Contribution, or the Work to which you have contributed, constitutes direct or contributory patent infringement, then any patent licenses granted to that entity under this Agreement for that Contribution or Work shall terminate as of the date such litigation is filed. Any patent license granted hereby with respect to Contributions by an individual employed by University is limited to patent claims where the individual that is the author of the Work is also the inventor of the patent claims licensed, and where the University has the right to grant such license under applicable grant and research funding agreements. No other express or implied licenses are granted.
